### What is the MBA?

The Metro Business Alliance is unique in the NJ/NY area. Since our inception in 1990, we have focused on stimulating business growth while developing long-term relationship. Every two weeks our group of like-minded professionals gathers with the objective of generating business for each other – and referring quality business opportunities to our trusted MBA members. Our focus is on producing quality referrals, not a quantity of questionable leads, so you are free to network with other members whose insights can prove invaluable. Our members integrity has stood the test of time! Every year a portion of our dues goes to charity.
